Road Construction Machine Manufacturer in India

Vishwakarma Engineering Works
ISO CERTIFIED CO.

Vishwakarma Engineering Works

Building Strong Roads with Precision Engineering

Trusted Manufacturer of High-Performance Road Construction Equipment for Infrastructure Projects Across India.

Quality • Performance • Innovation • Reliability

Engineering Reliable Solutions for Modern Road Infrastructure

Vishwakarma Engineering Works is a trusted Road Construction Machine Manufacturer in India, delivering high-quality machinery for road construction and infrastructure development. We focus on precision engineering, dependable performance, and customer satisfaction by manufacturing equipment that meets the evolving needs of contractors, infrastructure companies, and government projects across the country.

Vishwakarma Engineering Works
ISO CERTIFIED CO.

Our Commitment

We are committed to providing reliable road construction equipment that helps customers improve productivity, reduce operational costs, and complete projects efficiently with confidence.

Why Choose

- ✔ Premium Quality Manufacturing
- ✔ Advanced Engineering Solutions
- ✔ Durable & High-Performance Machine
- ✔ Cost-Effective Equipment
- ✔ Timely Delivery Across India
- ✔ Dedicated After-Sales Support

Supporting Diverse Infrastructure & Road Development Projects

Vishwakarma Engineering Works delivers reliable road construction machinery for a wide range of infrastructure projects across India. Our equipment is designed to meet the performance, durability, and productivity requirements of contractors, builders, and government agencies working on projects of every scale.

- 🏗️ ***Highway Construction***
- 🛣️ ***National & State Highway Projects***
- 🏙️ ***Smart City Development***
- 🏢 ***Municipal Road Construction***
- 🏭 ***Industrial Infrastructure***
- ✈️ ***Airport Runway Construction***
- 🚜 ***EPC & Road Construction Contractors***
- ⛰️ ***Mining & Rural Road Development***
- 🏛️ ***Government Infrastructure Projects***
- 🌉 ***Bridge & Flyover Construction***

Vishwakarma Engineering Works
ISO CERTIFIED CO.

Building Reliable Equipment for Every Road Construction Challenge

Complete Road Construction Equipment Solutions

Vishwakarma Engineering Works
ISO CERTIFIED CO.

Vishwakarma Engineering Works offers a comprehensive range of road construction machinery designed to deliver reliable performance, operational efficiency, and long-term durability. Our equipment is manufactured to support contractors, infrastructure companies, and government projects with dependable solutions for every stage of road construction.

- 🏭 Asphalt Plant

- 🔥 Hot Mix Plant
- 🛢️ Bitumen Tanks
- ⚙️ Wet Mix Plant
- 🚜 Road Roller

High-Performance Asphalt Plants for Efficient Road Construction

Vishwakarma Engineering Works
ISO CERTIFIED CO.

Vishwakarma Engineering Works manufactures robust and efficient **Asphalt Hot Mix Plant manufacturer in India** designed to produce high-quality hot mix asphalt for road construction projects. Built with precision engineering and reliable components, our plants ensure consistent output, fuel efficiency, and dependable performance for projects of every scale.

Key Features

- ✔ High Production Capacity
- ✔ Fuel-Efficient Operation
- ✔ Precision Mixing Technology
- ✔ Robust & Durable Construction
- ✔ User-Friendly Control System
- ✔ Low Maintenance Design

Benefits

- Consistent Asphalt Mix Quality
- Increased Productivity
- Reduced Operating Costs
- Reliable Long-Term Performance
- Faster Project Completion
- Easy Operation & Maintenance

Applications

- National & State Highway Projects
- Expressway Construction
- Urban Road Development
- Airport Runway Projects
- Industrial Infrastructure
- Commercial Road Construction

Reliable Asphalt Plants Engineered for Superior Performance & Long-Term Productivity.

Reliable Mobile Hot Mix Plants for Consistent Asphalt Production

Vishwakarma Engineering Works
ISO CERTIFIED CO.

Vishwakarma Engineering Works manufactures high-performance **Mobile Hot Mix Plants Manufacturer in India** designed to produce premium-quality asphalt mixtures for modern road construction projects. Engineered for efficiency, durability, and precision, our plants deliver consistent mixing performance, helping contractors achieve high productivity while maintaining excellent road quality.

Key Features

- ✔ High Mixing Efficiency
- ✔ Consistent Asphalt Quality
- ✔ Fuel-Efficient Performance
- ✔ Heavy-Duty Construction
- ✔ Advanced Control System
- ✔ Easy Operation & Low Maintenance

Benefits

- Uniform Hot Mix Production
- Higher Productivity
- Reduced Fuel Consumption
- Reliable & Continuous Operation
- Lower Maintenance Costs
- Long Service Life

Applications

- Highway & Expressway Construction
- National & State Road Projects
- Municipal Road Development
- Airport Runway Construction
- Industrial Infrastructure Projects
- Commercial Road Construction

Built to Deliver Consistent Performance for Every Road Construction Project.

Efficient Wet Mix Plants for High-Quality Road Base Construction

Vishwakarma Engineering Works
ISO CERTIFIED CO.

Vishwakarma Engineering Works manufactures durable and high-performance **Wet Mix Plants Manufacturer in India** designed to produce uniform wet mix material for road base and sub-base construction. Engineered with precision and built for continuous operation, our plants deliver consistent output, improved productivity, and dependable performance for infrastructure projects of every scale.

Key Features

- ✔ High Production Capacity
- ✔ Uniform & Accurate Mixing
- ✔ Robust Heavy-Duty Construction
- ✔ Low Power Consumption
- ✔ Easy Operation & Maintenance
- ✔ Reliable & Continuous Performance

Benefits

- Consistent Wet Mix Quality
- Faster Project Execution
- Improved Operational Efficiency
- Reduced Maintenance Requirements
- Long Service Life
- Cost-Effective Performance

Applications

- Highway & Expressway Projects
- WMM Road Base Construction
- National & State Highway Development
- Smart City Infrastructure
- Industrial & Commercial Roads
- Large Civil Construction Projects

Engineered for Reliable Performance in Every Road Base Construction Project.

High-Efficiency Drum Mix Plants for Continuous Asphalt Production

Vishwakarma Engineering Works
ISO CERTIFIED CO.

Vishwakarma Engineering Works manufactures reliable **Drum Mix Plants** engineered for continuous asphalt mixing with high productivity and consistent performance. Designed using advanced engineering and quality components, our plants deliver efficient operation, reduced fuel consumption, and dependable output for a wide range of road construction projects.

Key Features

- ✔ Continuous Asphalt Mixing Process
- ✔ High Production Efficiency
- ✔ Fuel-Efficient Operation
- ✔ Heavy-Duty & Durable Construction
- ✔ User-Friendly Control System
- ✔ Low Maintenance Design

Benefits

- Continuous & Uniform Mix Production
- Increased Productivity
- Lower Operating Costs
- Reliable Long-Term Performance
- Easy Operation & Maintenance
- Excellent Return on Investment

Applications

- Highway & Expressway Construction
- National & State Road Projects
- Municipal Road Development
- Airport Runway Construction
- Industrial Infrastructure Projects
- Large-Scale Road Construction

Designed for Continuous Production, Maximum Efficiency, and Reliable Road Construction Performance.

Reliable Bitumen Tanks for Safe Storage & Efficient Heating

Vishwakarma Engineering Works
ISO CERTIFIED CO.

Vishwakarma Engineering Works manufactures high-quality **Bitumen Tanks Manufacturer in India** designed for the safe storage, efficient heating, and smooth handling of bitumen used in road construction projects. Built with robust construction and reliable heating systems, our tanks help maintain the required bitumen temperature while ensuring consistent performance and operational efficiency.

HIGH PERFORMANCE | UNIFORM SPRAYING | DURABLE & RELIABLE | EASY MAINTENANCE | FUEL EFFICIENT

Key Features

- ✔ High-Capacity Storage Solutions
- ✔ Efficient Heating System
- ✔ Heavy-Duty Steel Construction
- ✔ Excellent Thermal Insulation
- ✔ Low Maintenance Design
- ✔ Safe & Reliable Operation

Benefits

- Safe & Efficient Bitumen Storage
- Uniform Temperature Maintenance
- Reduced Heat Loss
- Improved Operational Efficiency
- Long Service Life
- Cost-Effective Performance

Applications

- Asphalt Plants
- Hot Mix Plants
- Road Construction Projects
- Highway Maintenance
- Infrastructure Development
- Bitumen Storage & Transportation

Engineered for Safe Storage, Efficient Heating, and Reliable Bitumen Management.

High-Performance Road Rollers for Superior Surface Compaction

Vishwakarma Engineering Works
ISO CERTIFIED CO.

Vishwakarma Engineering Works manufactures robust and reliable **Road Rollers Machine Manufacturer in India** designed to deliver excellent compaction performance for road construction and infrastructure projects. Built with precision engineering and durable components, our road rollers ensure uniform surface compaction, improved road stability, and long-lasting pavement quality.

Key Features

- ✔ Powerful & Efficient Compaction
- ✔ Heavy-Duty Construction
- ✔ Smooth & Reliable Operation
- ✔ High Ground Stability
- ✔ Easy Controls & Low Maintenance
- ✔ Built for Long Service Life

Benefits

- Superior Surface Compaction
- Improved Road Strength & Durability
- Increased Work Efficiency
- Reduced Maintenance Costs
- Reliable Long-Term Performance
- Excellent Return on Investment

Applications

- Highway & Expressway Construction
- Road Repair & Maintenance
- Smart City Infrastructure
- Industrial & Commercial Projects
- Airport Runway Construction
- Civil Engineering Projects

Built for Powerful Compaction, Reliable Performance, and Long-Lasting Road Quality.

Vishwakarma Engineering Works
ISO CERTIFIED CO.

Precision Engineering. Superior Quality. Reliable Performance.

At Vishwakarma Engineering Works, quality is the foundation of everything we manufacture. Every machine is designed using advanced engineering practices, premium-grade materials, and a rigorous quality control process to ensure dependable performance, durability, and long-term value for every customer.

Quality & Manufacturing Excellence

- ✔ Precision Engineering & Modern Manufacturing
- ✔ Premium-Grade Raw Materials
- ✔ Strict Quality Inspection at Every Stage
- ✔ Robust & Heavy-Duty Machine Construction
- ✔ Reliable Performance Under Demanding Conditions
- ✔ Continuous Innovation & Product Improvement

Why Our Machines Stand Out

- ✔ High Productivity & Operational Efficiency
- ✔ Fuel-Efficient Performance
- ✔ Low Maintenance Requirements
- ✔ Durable & Long Service Life
- ✔ User-Friendly Operation
- ✔ Excellent After-Sales Support

Let's Build Better Roads Together

Whether you're planning a new road construction project or looking for reliable road construction machinery, Vishwakarma Engineering Works is here to provide dependable solutions tailored to your requirements. Connect with our team to discuss your project and find the right equipment for your business.
